

## Ac series for Ceiling

This ceiling mode air purifier suits in locations fitted with window type or split type air-conditioning system. Independent inhaling and exhausting air exits in the purifiers is optional to choose installation point of and distance between the purifier units which is flexible facilitating good ventilation. The design and the dimension of the inhaling and exhausting air exits can be tailor-made.

The purifier adapts independent turbo fan for ventilation with the advantages of high wind force and low decibel level. To be workable in different regions, operating voltage of the purifier can be adjusted before delivery. Aluminum alloy dust filter are fitted inside the purifier.

### Specifications

Layer of TiO <sub>2</sub> net	2
Number of UV lamp	2 pcs.
Air flow	7.5 cmm 265 cfm
Anti-bacteria rate	96.5%
Formaldehyde purification rate	82%
TVOC purification rate	>98%
Power consumption	80W
Adaptor i/p voltage	AC 100 / 230v 50/60 hz
UV Lamp Life Time	10,000 hours
Tio <sub>2</sub> net life time	10 years
Air Louvers Dimension (L/W)	600mm x 600mm
